— Sunday Super, 1996, May Issue —

This was written at the same time that I was working on 'Flame of Recca'

My grandfather had just passed away, and I wanted to write something to cheer up my Uncle.

I wrote this in the same vein as Rocket Princess

The names for the characters in this story were taken from the Pro Wrestlers in the 'V Enter' at the time.

I even used Sakuraba's name, and he's become quite famous.

Man, that makes me feel old
Well, I guess it has been over 10 years now

In case you are wondering why some of the pages seem to have the top and bottom cut off. It was like that with the page.

Another note, on page 43, first panel, when the guy mentions "She's like Nina", we don't know for sure who he meant. Snoopy's best guess is Nina Williams from Tekken.
